MASTODON (Everbearing) ...	2.00	3.25	5.00		
GEM (Everbearing)	2.00	3.25	5.00		

Due to the most severe drought that we have had in this section for many years, strawberry plants are very scarce, in fact, many fields died completely from lack of moisture, and the fields that did survive only made a limited number of plants, this has created a scarcity of all varieties of strawberry plants and the price has had to be advanced. Looking over our supply of plants we know we will be sold out of most varieties long before the end of our usual shipping season, thus, we advise all our customers to order at once so that we can furnish them with the varieties they want.

MY STRAWBERRY PLANTS

Are always grown in new beds,
Are fresh dug at time of shipment,
Are planted in blocks and kept pure,
Are sold at as low a price as we can name,
And furnish good plants.

Sweet Potato Plants

NANCY HALL, PORTO RICO, YELLOW JERSEY and WHITE YAMS
Price Either Variety: \$1.00 per 100; 500 for \$3.25; 1000 for \$6.00. Postpaid

STATE BOARD OF AGRICULTURE

Nursery Certificate

Dover, Delaware, October 18, 1943

To Whom It May Concern:

This certifies that I have this day examined the nursery stock grown by Basil Perry at Georgetown, Delaware, Sussex County consisting of Strawberries and that said nursery stock is apparently free from dangerous, injurious insects and diseases. The following person, BASIL PERRY certifies that the nursery stock contained in this shipment was taken from the stock which passed inspection. This certificate may be revoked by the State Board of Agriculture for cause and it is invalid after August 31, 1944.

W. L. PARKER, Inspector.

Our plants are certified. A copy of our State Certificate accompanies every shipment.

Terms—Payment must be made before shipment. If not convenient to remit entire amount when order is sent remit not less than one-fourth of the amount of the order, and your order will be booked and held for you and you can remit the remainder when convenient, before shipment.

Our Prices—We think our prices are as low as any reliable grower can offer the same grade of goods. Some may offer lower prices, but the best plants are always the cheapest in the end. Try ours.

Our Stock is equal to any grown, and you may always rely on getting it fresh and full of life, and as our soil is especially adapted to the growing of plants, we send out as fine roots as any on the market.

ONE YEAR

ALBANY, N.Y.

When you are considering a new automobile, you should first consider the quality of the engine. A good engine is the heart of the car, and it should be able to run smoothly and efficiently for many years. The engine should be able to handle a variety of loads and speeds, and it should be easy to maintain. A good engine is also a safe engine, as it is less likely to break down or catch fire. When you are looking for a new car, make sure you are getting a car with a good engine. This will ensure that you have a car that is reliable, safe, and long-lasting.
